## DETAILED ACTION

### *Claim Rejections - 35 USC § 112*

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 15 and 22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. With respect to claim 15, "each tubular should read --each of said tubular--.
3. With respect to claim 22, it is unclear as to what defines "a fixedly and generally U-shaped cross sectional configuration.

### *Claim Rejections - 35 USC § 102*

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 10-28 are rejected under 35 U.S.C. 102(b) as being anticipated by Chesney #3,329,239. Chesney, as best seen in Figure 3, discloses a sawhorse 10 comprised of legs 12, 13, cross members 11, all of which are 2 x 4's, diverging tubular C-shaped brackets 14, 16, 18, which receive the legs in lower portions thereof and the cross members in upper portions defined by

jaws 40, the jaws fixedly joined the elements 16 and 18, a base of the jaws defined by surfaces planar 44, smooth interior jaw portions 42, apertures (unnumbered), which can receive fasteners therein, and stops 45, 46.

### ***Response to Arguments***

6. Applicant's arguments with respect to claims 10-28 have been considered but are moot in view of the new ground(s) of rejection.

### ***Conclusion***

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Specifically, the applicant has now recited planar channel portions, receptacles fixedly joined to the channel, diverging receptacles, etc. See claims 10, 23, and 24. Accordingly, **THIS ACTION IS MADE FINAL.** See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however,

Art Unit: 3634

will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
